

SuperClean

Advanced household Cleaner.

Biological Multi-Purpose Cleaner/Deodouriser
Compatible with SepClean and Septic tank Systems

**OUTSTANDING
CLEANER WHICH
WILL IMPROVE
THE WORKING OF
YOUR SEPTIC
TANK AND NOT
HARM IT!!**

SuperClean is a unique biological active liquid formulation containing specialised bacterial strains & biodegradable cleaners.

The liquid contains a blend of selected micro-organisms especially selected for their ability to grow and produce a wide range of enzymes, which help degrade organic waste materials.

**REPLACE YOUR
TOILET CLEANER
WITH SUPERCLEAN**

Areas of Use

Carpets

Can be used to spot clean or shampoo carpets, curtains or to remove deep organic stains such as food, wine, vomit, urine etc.

Odours

Can be sprayed mopped or sponged to remove odours from bathrooms, urinals, floors, carpets and fabrics.

General Cleaning

For sinks, showers, floors, wc, tiled walls and kitchens etc.

Why SuperClean works so well with SepClean septic tank treatment

Normal household cleaners contain harsh chemicals which suppress or kill the natural action of the enzymes in your septic tank. SuperClean has a biological formulation which actually improves this action. So it is the ideal partner for SepClean in maintaining the health of your septic tank system.
